

'Tis the Season for Avoiding Holiday Safety Hazards

Here are some tips to help you avoid common holiday hazards:

- **Trees:** Keep away from fireplaces, radiators, and other heat sources.
- **Lights:** Check for frayed wires and loose connections. Use indoor and outdoor lights as intended and turn them off when not in use.
- **Decorations:** Always use a step stool or ladder to reach high places. Avoid placing breakable ornaments on lower tree branches.
- **Food:** Practice safe food handling.
